Rule	Definition						
Mandatory	The following attributes represent the mandatory requirements. Your upload will be unsuccessful if any of these attributes are missing and your partner will not receive you						
Conditional	The following attributes are mandatory under certain conditions. The conditions will be noted in the Retailer Notes. If the conditions apply and are not met, your upload will						
Essential	Uploading this information is essential for your partner to have complete information regarding your item(s)						
Recommended	Providing this level of attributes to your partner will help improve merchandising and marketing of your item(s). Buyers will have access to the information they need, which more sales conversions						
Attribute Name	Attribute Description	Repeatable	Type	Length	Examples	Choice List	Retailer Requirements
Order Lead Time	Measures lead time from date order placement to shipment date. If a value is indicated for this attribute, one must also be entered for this "Order Lead Time Code." //LineItem/QuantitiesSchedulesLocations/LeadTimeQuantity	N	INTEGER	1/8	5,2,24		Mandatory
Order Lead Time Code	Qualifies "Order Lead Time" in temporal units according to the following set. If a value is indicated for this attribute, one must also be entered for this "Order Lead Time." Valid Values: DA (calendar days); DW (working days); HR (hours); WK (weeks); MO (months) //LineItem/QuantitiesSchedulesLocations/LeadTimePeriodInterval	N	SET		DA	DA,DW,HR,MO,WK	Mandatory

Logistics Attributes							
Provides physical item information as well as shipping-specific information, such as whether the item contains hazardous materials.							
Attribute Name	Attribute Description	Repeatable	Type	Length	Examples	Choice List	Retailer Requirements
Eaches Per Layer	Indicates the quantity of eaches per layer on a standard pallet.	N	REAL	1/8	24,6		Mandatory
Pallet Quantity UOM	Indicates the specific unit of measure which describes the value of "Pallet Quantity."	N	SET		SH,EA,BX,CA,CT	SH,EA,BX,CA,CT	Mandatory
Master Pack/Case Depth	Describes the length of master pack in real numbers. If this attribute has a value, "Master Pack/Case Depth UOM" must also have a value.	N	REAL	1/8	5		Recommended
Master Pack/Case Depth UOM	The specific unit of measure which describes the value of "Master Pack /Case Depth". If this attribute has a value, "Master Pack/Case Depth" must also have a value.	N	SET		CM,MM,IN,FT	CM,MM,IN,FT	Recommended
Pallet Quantity	Indicates the number of selling units on a pallet.	N	REAL	1/8	25,100		Mandatory
Inner Pack Qty	Indicates the number of eaches (sellable units) in the inner pack. If required but no inner packs exist, enter a qty of 1.	N	INTEGER	1/6	6		Mandatory
Inner Pack Length	Describes the length of inner pack in real numbers. If this attribute has a value, "Inner Pack Length UOM" must also have a value.	N	REAL	1/8			Mandatory

Attribute Name	Attribute Description	Repeatable	Type	Length	Examples	Choice List	Retailer Requirements
Special Handling Code	Describes the special transportation handling requirements of the item according to the following set. Valid values DNF (Do Not Freeze); EL (Environmental control limits); FL (Flammable); FR (Fragile); MRF (Refrigerated); OPR (Perishable); PFH (Protect from Heat); AH (Humidity Sensitive Shipment); BKA (Bulky Article); CO (No Marshaling Required for Hazardous Materials); DA (Dangerous); EX (Explosive Flammable Gas); FP (Flammable Poison Gas); HM (Endorsed as Hazardous Material); IC (Ice); IE (Shipper Load and Count); KMD (Keep Material Dry); NC (Notify Consignee Before Delivery); NPR (No Placards Required); NW (In Case of Fire Do Not Use Water); OSB (Stow Below Deck); OTC (Temperature Control); PFH (Protect From Heat); PG (Poisonous Gas); PHR (Per Hour Rates Applied); RM (Radioactive Material); SUIP (Supplemental Information Provided); UN (Unload as Placarded); UNDF (Undefined); VOC (Volatile Organic Compound)	N	SET		FR	VOC,FR,AH,BKA,CO,DA,DNF,EL,EX,FL,FP,FDG,HM,FRZ,IC,HOT,IE,KMD,MRF,NC,KRT,NPR,NW,OPR,OSB,OTC,PFH,PG,PHR,RM,SUIP,UN,UNDF	Mandatory
Maximum Storage Temperature	Indicates the maximum temperature at which the item should be stored in real numbers. If this attribute has a value, "Minimum/Maximum Storage Temperature UOM" must also have a value.	N	REAL	1/25	80.5		Mandatory
Minimum Storage Temperature	Indicates the minimum temperature at which the item should be stored in real numbers. If this attribute has a value, "Minimum/Maximum Storage Temperature UOM" must also have a value.	N	REAL	1/25	50		Mandatory
Minimum/Maximum Storage Temperature UOM	Indicates the specific unit of measure used to identify minimum storage temperature and maximum storage temperature. If this attribute has a value, either "Minimum Storage Temperature," "Maximum Storage Temperature," or both of those attributes must have values. Valid values C (Celsius); F (Fahrenheit)	N	SET		C,F	FA,CE,C,F	Mandatory
Regulatory & Compliance Attributes							
Indicate a product’s relationship to regulatory and compliance schemes established by federal, state, industry-standard, and other rule-making bodies.							
Attribute Name	Attribute Description	Repeatable	Type	Length	Examples	Choice List	Retailer Requirements

Rule	Definition						
Mandatory	The following attributes represent the mandatory requirements. Your upload will be unsuccessful if any of these attributes are missing and your partner will not receive you

Attribute Name	Attribute Description	Repeatable	Type	Length	Examples	Choice List	Retailer Requirements
Hazchem Code/EAC Code	Indicates the hazchem or EAC Code. This hazchem code (also called Emergency Action Code) gives vital information to fire brigade and other emergency services on the action to be taken to combat spillage, leakage or fire in an emergency involving a hazardous substance.	N	SET		4ZE	4ZE,1PE,3PE,2PE,1RE,4PE,3RE,2RE,1SE,4RE,3SE,2SE,1TE,4SE,3TE,2TE,1WE,4TE,3WE,2WE,1XE,4WE,3XE,2XE,1YE,4XE,3YE,2YE,1ZE,4YE,3ZE,2ZE	Mandatory
Dangerous Goods Shipping Name	Indicates the proper shipping name of the represented item. The proper shipping name for a particular substance is the name used to describe that substance during transport. The proper shipping name for ethanol is “Ethanol”, but the proper shipping name for a less common substance will be a generic description, eg. “Flammable Liquid n.o.s.” (not otherwise specified).	N	TEXT	1/50	Ethanol		Conditional
Therapeutic Goods Administration Schedule	Indicates the Schedule according to the TGA Classfication. Scheduling is a national classification system that controls how medicines and poisons are made available to the public. Medicines and poisons are classified into Schedules according to the level of regulatory control over the availability of the medicine or poison required to protect public health and safety.	N	TEXT	1/80	Schedule 2		Mandatory
Period After Opening	Indicates the amount of time after opening that the product can still be used. Please provide the value in 'Days'.	N	REAL	0/8	30,60,90		Mandatory
Dangerous Goods Regulations	Indicates the regulations on the dangerous goods.	N	TEXT	1/200	GHS,Storage,Transportation,Waste		Recommended
Pharmaceutical Benefits Scheme Item Subsidy Code	Indicates the PBS Item Subsidy Code, an administrative code that assists with claim processing.	N	TEXT	1/80	11693K		Conditional
Australian Register of Therapeutic Goods ID	Indicates the 5 digit identification number assigned to the item by the Australian Register of Therapeutic Goods (ART).	N	REAL	5/5	97345		Conditional
Sustainable Claims	Product statements released by suppliers about environmental sustainability, recycling, energy and water efficiency or impact on animals and natural environment. Can refer to manner products are produced, packaged, distributed, used, consumed and/or disposed of. E.g. Recyclable Packaging, cruelty-free, not tested on animals	N	TEXT	1/1000	Cruelty-free		Recommended

Rule	Definition

Essential	Uploading this information is essential for your partner to have complete information regarding your item(s)						
Recommended	Providing this level of attributes to your partner will help improve merchandising and marketing of your item(s). Buyers will have access to the information they need, which more sales conversions						
Attribute Name	Attribute Description	Repeatable	Type	Length	Examples	Choice List	Retailer Requirements
Therapeutic Goods Administration Sponsor	Indicates the TGA Sponsor for the item. The sponsor is responsible for applying to the TGA to have their therapeutic good included on the Australian Register of Therapeutic Goods (ARTG).	N	TEXT	1/50	exports therapeutic goods from Australia,imports therapeutic goods into Australia.		Mandatory
Australian Dangerous Goods Class	Indicates the dangerous goods class required by and applicable to the transport of dangerous goods according to the Australian Dangerous Goods Code.	N	TEXT	1/10	2.1,6.1		Mandatory
PBS Item Code	Indicates the PBS Code for the product per Department of Health: www.pbs.gov.au	N	TEXT	1/5	13Q,22E		Recommended
Nutritional/Dietary Claims	Indicates additional nutritional or dietary claims of the item. E.g. Sugar-Free, Gluten-Free, Vegan, Plant-based, Non-GMO, Organic, Low Fat, No Artificial Flavor Added, No Artificial Colors Added	N	TEXT	1/1000	No artificial colors		Recommended
NDSS Item	Indicates if the item is subsidized by The National Diabetes Services Scheme (NDSS)	N	BOOLEAN	1/1	Y		Recommended
Trade Item Spirit Class	Identifies the labeled distilled spirits as to its specific class and/or class and type.	N	TEXT	1/80	Whisky,Gin		Recommended
Dangerous Goods Technical Name	Indicates the technical name of the item. The technical name shall be a recognized chemical or biological name, or other name currently used in scientific journals and handbooks.	N	TEXT	1/50	drazoxolon		Conditional
HSNO Classification	Indicates the classification code for the item according to Hazardous Substances and New Organisms (HSNO) standards.	N	TEXT	1/10	3.1D,1.1		Mandatory
Dangerous Goods	Indicates if the product is/contains dangerous goods.	N	BOOLEAN	1/1	Y		Mandatory
United Nations Dangerous Goods Number	Indicates the United Nations Dangerous Goods Number that identifies dangerous goods, hazardous substances and articles (such as explosives, flammable liquids, toxic substances, etc.) in the framework of international transport. They are assigned by the United Nations Committee of Experts on the Transport of Dangerous Goods.	N	REAL	4/4	1903		Mandatory
